

## “Reflection” No. 1

Inspiring; that is the word I would use to describe our trip. We were beyond blessed to be blessings to the people of Kenya and it was incredible to join the Maua Methodist Hospital, the VKBC Orphanage, the four schools we visited and all of the incredible people we were able to interact with for just a small part of their journeys. We were able to experience so many things unlike anything back home, from vibrant church services, to the amazingly fresh food, the African safari, and hospitality that exceeds that of the south. Most of all though, it is truly the people of Kenya that transform your trip with their joyous attitudes, loving hearts, and excited smiles. If you are even slightly considering this trip, pray, take the leap of faith and trust the Lord. Bwana Asifiwe!

## “Reflection” No. 2

Illuminating. This is the word that I would use to describe our two weeks spent in Kenya. Illuminating in how it showed me just how much excess we have in America. Illuminating in how it showed me what true joy in the Lord looks like. Illuminating in how it showed me what the universal church really means. Illuminating in how it revealed the beauty of God’s creation. And most of all, illuminating in how it gave me another glimpse at the complex wonder of the Kingdom of God.
